Amendments to the Claims:

The listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

Claim 11. (*Currently Amended*) A jukebox system, comprising:

a plurality of jukebox devices, wherein each jukebox device includes a microprocessor, a storage device for storing audiovisual information that can be reproduced by the jukebox device in response to user requests, an audio system for playing audio, a display device for displaying video, and a communication system for enabling the jukebox to communicate through an audiovisual distribution network;

a server remote to said jukebox device that provides services to said jukebox device, wherein said server and said jukebox can communicate with each other through said distribution network; and

a plurality of remote control devices for said jukebox devices, respectively, each of said remote controls being operable to control one of said jukebox devices when said jukebox device recognizes a control code transmitted from the remote control, and further wherein ~~said server is operable to send the control code to at least one of the jukeboxes via the distribution network and the~~ at least one jukebox is operable to store the control code for use in comparing the control code sent by the remote control <u>or by the server via the distribution network</u> with the control code stored on the jukebox to determine whether or not the jukebox will respond to control codes from the remote control.

Claim 12. (*Previously Presented*) The jukebox system of claim 11, wherein each of said jukeboxes include a learning mode that enables the control code to be obtained from the remote control and stored on the jukebox.

Claim 13. (*Previously Presented*) The jukebox device of claim 11, wherein the remote control is operable to activate and deactivate the jukebox device.

Claim 14. (*Previously Presented*) The jukebox device of claim 11, wherein the remote control is operable to activate and deactivate a payment device on the jukebox device.

Claim 15. (*Previously Presented*) The jukebox device of claim 12, wherein the learning mode is incorporated into an operating system of the jukebox device.
